

Induction Program

When new students enter an institution, they come with diverse thoughts, backgrounds and preparations. It is important to help them adjust to the new environment and inculcate in them the ethos of the institution with a sense of larger purpose.

A 3-week long induction program for the UG students entering the institution, right at the start has been introduced in 2018. Normal classes start only after the induction program is over. Its purpose is to make the students feel comfortable in their new environment, open them up, set a healthy daily routine, create bonding in the batch as well as between faculty and students, develop awareness, sensitivity and understanding of the self, people around them, society at large, and nature.

The time during the Induction Program is also used to rectify some critical lacunas, for example, English background, for those students who have deficiency in it.

The following are the activities under the induction program in which the student would be fully engaged throughout the day for the entire duration of the program.

1 Physical Activity

2 Creative Arts

3 Universal Human Values

4 Literary

5 Proficiency Modules

6 Lectures by Eminent People

7 Visits to Local Area

8 Familiarization to Dept./Branch & Innovations

Rajkiya Engineering College,Kannauj
